

BARK INDIA CHARITABLE TRUST

Monthly Newsletter- January, 2026

As a new year unfolds, Bark India continues its mission of rescue, treatment, and rehabilitation for injured, abandoned, and suffering animals across our community. Every life we touch reminds us why compassion matters.

Our efforts extend into preventive care through community vaccination camps, safeguarding both animals and public health, As well as school awareness programmes, where young minds are taught empathy, responsibility, and coexistence with animals.

This year, we look forward to reaching more strays in need, and strengthening the bond between humans and animals. With continued compassion, collective care, and unwavering support, we step into 2026 determined to make it a year of healing and dignity for every stray life.

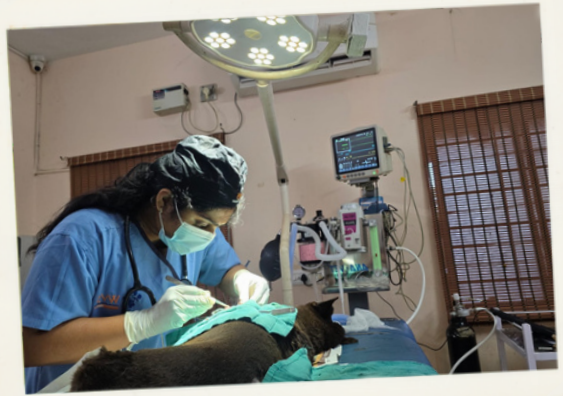

Rescue & Treatment- 85

Every rescue tells a story of pain, courage, and recovery. From accident injuries to life-threatening infections, our rescue and treatment team works tirelessly to provide timely medical care, surgeries, and rehabilitation—giving stray animals a second chance at life, health, and dignity.

Surgeries- 39

Each surgery is a way to hope, strength and way to new life. The strays who have no one to take care, are treated, operated, post-operation care done, cured at Bark India rescue centre. Their courage and strength made them recover fast and get back to their places after recovery.

Outpatients- 176

Our outpatient service offers medical care to pets and strays, where stray animals receive whole medical procedures for free, including necessary surgeries.

Your Support matter !

Together we can Help more lives

Every rescue, treatment, and recovery is possible because of your kindness. Your donation helps us provide urgent medical care, food, shelter, and hope to injured and abandoned animals. Stand with us for the voiceless—together, we can continue saving lives and creating a compassionate future for strays.
